1. The following document is referred to in this communication:

D1: PATENT ABSTRACTS OF JAPAN vol. 2003, no. 11, 5 November 2003
(2003-11-05) -& JP 2003 191971 A (DAIWA CAN CO LTD), 9 July 2003

D2: PATENT ABSTRACTS OF JAPAN vol. 2002, no. 09, 4 September 2002
(2002-09-04) -& JP 2002 128102 A (FUJIMORI KOGYO CO LTD), 9 May
2002 (2002-05-09)

2. INDEPENDENT CLAIM 1

- 2.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT. Document D1 discloses (the references in parentheses applying to this document):

"A bag (cf. fig. 1 element 1) suitable for containing an alcohol beverage comprising:

at least two panels having adjacently positioned edges forming at least one seam (cf. fig. 1 and paragraph 7), the seam having a joined seam portion where the adjacently positioned edges of the panels are joined together, and an open seam portion where the adjacently positioned edges of the panels are not joined together (cf. fig. 1 and paragraphs 7 and 9); and,

a bag neck molding (cf. fig 1 element 2) extending through the open seam portion, the bag neck molding being secured in sealing relation with the panels of the bag at the open seam portion (cf. paragraph 9), and the bag neck molding supporting a valve (cf. fig. 1 element 25) accessible for operation from outside the bag and supporting a spear (cf. fig. 1 elements 24 and 24') extending into the bag through which the beverage may pass."

Moreover, document D2 also discloses a bag according to the features of claim 1.

3 DEPENDENT CLAIMS 2-10

3.1 Dependent claims 2-10 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step (Article 33(2) and (3) PCT).

i) The additional features of claims 2 and 8 are already known from document D1 (see fig. 1 and paragraphs 7 and 9).

ii) Concerning dependent claims 3-7; 9 and 10 it is pointed out that the features of these claims appear to relate to minor constructional features which, insofar as not directly disclosed in the prior art, appear to relate to obvious modifications thereof. Such features will be selected and used by the man skilled in the art as and when he needs them, without any inventive thought being required. The subject-matter of these claims appear to be lacking in inventive step (Article 33(3) PCT).

Further observations

4. Independent claim 1 is not in the two-part form in accordance with Rule 6.3(b) PCT, which in the present case would be appropriate, with those features known in combination from the prior art (document D1) being placed in the preamble (Rule 6.3(b)(i) PCT) and with the remaining features being included in the characterising part (Rule 6.3(b)(ii) PCT).
5. The features of the claims are not provided with reference signs placed in parentheses (Rule 6.2(b) PCT).
6. Contrary to the requirements of Rule 5.1(a)(ii) PCT, the relevant background art disclosed in the documents D1 and D2 is not mentioned in the description, nor are these documents identified therein.
